EXECUTIVE SUMMARY

Entry-level Cybersecurity professional with a strong foundation in SOC monitoring, incident triage, log analysis, network traffic analysis, and vulnerability assessment. Hands-on exposure to SIEM, IDS/IPS, Windows and Linux environments through internship and virtual SOC programs. Adept at identifying suspicious activity, documenting security events, and escalating incidents according to established procedures. Strong understanding of networking fundamentals, MITRE ATT&CK, and NIST Cybersecurity Framework with a strong interest in threat detection, incident response, and security operations.

EXPERIENCE

- **Intern | Sworks Infotech Pvt Ltd | May 2025 – July 2025**

Supported security operations through monitoring, analysis, and documentation of security events using SIEM and IDS/IPS tools. Assisted with vulnerability assessments and security reviews across systems and applications. Performed network traffic analysis and log inspection using Wireshark, Wazuh, and Snort to identify suspicious activity. Contributed to incident response workflows by documenting findings, risks, and mitigation recommendations while following established escalation procedures.

PROJECTS

- **SIEM-Based Log Analysis & Threat Investigation | Splunk**

- Investigated Windows, Linux, and web server logs using Splunk to identify suspicious activity and attack patterns.
- Detected malware execution, persistence, privilege escalation, and brute-force activity through log correlation.

- **SIEM Alert Triage & False Positive Analysis | SOC Simulation**

- Triage and prioritized simulated SOC alerts based on severity, timestamp, and available telemetry.
- Analysed alert context to determine True/False Positive verdicts and documented investigation findings.

- **SOC L1 Alert Investigation & Incident Escalation | SOC Simulation**

- Investigated simulated phishing, data exposure, and domain-discovery alerts using security telemetry.
- Validated True Positive incidents, documented findings, and escalated cases to L2 analysts.

- **Windows Endpoint Compromise & Kill Chain Investigation | Windows/Sysmon**

- Investigated a simulated Windows compromise using Security Logs, Sysmon, and PowerShell history.
- Traced malware execution, privilege escalation, persistence, C2 communication, and identified relevant IOCs.

SECURITY OPERATIONS EXPERIENCE (VIRTUAL PROGRAMS – FORAGE)

- TCS Cybersecurity – IAM Developer Virtual Job Simulation (December 2025).
- Shields Up: Cybersecurity Virtual Experience Program – AIG (December 2025).
- Datacom Cyber Security Operations Virtual Experience Program (December 2025).

TECHNICAL SKILLS

- **Security Operations:**
Security Monitoring, Alert Monitoring, Alert Analysis, Incident Triage, Incident Investigation, Log Analysis, Threat Identification, Vulnerability Assessment, Incident Response, Security Event Analysis, Incident Escalation.
- **SIEM & Security Tools:**
Microsoft Sentinel, Splunk, Wazuh, Sysmon, Wireshark, Nmap.
- **Networking:**
TCP/IP, DNS, DHCP, HTTP/HTTPS, Network Protocols, Network Traffic Analysis, Network Security.
- **Operating Systems:**
Windows, Linux.
- **Security Frameworks & Concepts:**
MITRE ATT&CK (Awareness), NIST Cybersecurity Framework (CSF), SOC Operations Workflow, STRIDE Threat Modeling, Security Incident Response.
- **Reporting & Documentation:**
Incident Reports, Investigation Notes, Security Event Documentation, Handover Summaries, Technical Documentation.

CERTIFICATIONS & TRAINING

- Fortinet – Cybersecurity and Cloud Fundamentals 1.0 | September 2026
- Intro to Splunk – Splunk Education | January 2026
- TryHackMe SOC Level 1 | In Progress
- AWS Security Learning Plan – Threat Detection and Incident Response | In Progress

EDUCATION

- M.Sc Cyber Forensics and Cyber Security | Amity University | Noida, Uttar Pradesh, India - (Aug 2024 – May 2026)
- B.Sc Forensic Science | Madurai Kamaraj University | Madurai, Tamilnadu, India - (July 2021 – April 2024)

SOFT SKILLS

- Analytical Thinking
- Problem-Solving
- Attention to Detail
- Critical Thinking
- Incident Analysis
- Communication Skills
- Team Collaboration
- Time Management
- Adaptability
- Continuous Learning
